WHY DISCERNING WATER ENTHUSIASTS CHOOSE THE SUBLUE VAPOR

EXPERIENCE IT ALL, FROM UNDERWATER MARVELS TO SURFACE FUN, WITH SUBLUE VAPOR

Ready to embark on the ultimate underwater adventure? Look no further! Meet the Subblue Vapor, our groundbreaking Pump-Jet Subblue Vapor a compact marvel set to transform your aquatic explorations

Fueled by state-of-the-art ALO 2.0 (Active Loop Optimization) technology, Subblue Vapor propulsor's ingenuity sets unprecedented standards. Outfitted with a 6-blade impeller and a 12-blade rear guide vane, it masterfully translates torque into an exhilarating surge of forward momentum, granting you unrivaled control and excitement.

Propulsion Masterpiece

Unleashing a maximum thrust of 21kg, Subblue Vapor effortlessly propels you through water, revealing a realm of underwater marvels.

Elevated Comfort

Bid adieu to fatigued hands! Reduced torque ensures a velvety-smooth ride, Subblue Vapor guaranteeing that weariness never dampens your enthusiasm for limitless aquatic exploration.

Seamless Power and Exceptional Thrust

From leisurely glides to exhilarating races, Subblue Vapor not only maintains unwavering power output at every speed but also boasts an astonishing maximum thrust of up to 21kg. This dual advantage enables you to relish each moment without interruption while being propelled through water with unparalleled force and agility.

UNLEASH EFFORTLESS AQUATIC MASTERY WITH STREAMLINED DESIGN

Experience aquatic freedom like never before with Subblue Vapor cutting-edge streamlined design a blend of innovation and efficiency that redefines your underwater journey. Our spindle-shaped body effortlessly glides through water, while the hydrodynamic buoyancy chamber minimizes disruptions, enabling you to explore deeper and glide further. Say hello to a new level of underwater movement where speed, performance, and comfort converge seamlessly.

DYNAMIC SPEED CUSTOMIZATION: DIVE INTO THE THRILL ZONE

Experience the pulse-pounding excitement of Subblue Vapor customizable speed control, propelling you through the depths at your desired velocity. Unleash the scooter's rapid prowess with three exhilarating speed options: 6km/h, 8km/h, and 10km/h. Feel the rush as you glide effortlessly or rev up for a heart-pounding journey the choice is yours. Immerse yourself in a world of underwater wonder, where every surge of speed unlocks a new level of aquatic exhilaration. Explore the depths on your terms, igniting an adrenaline-fueled adventure that leaves a trail of unforgettable memories in your wake.

6 km/h **8** km/h **10** km/h

IMMERSIVE LED DISPLAY: YOUR UNDERWATER DASHBOARD

Step into a world of information and control with Subblue Vapor immersive LED screen, serving as your underwater dashboard. Stay connected to your adventure by easily tracking battery levels, speed, bearing, water temperature, and depth. Tailor settings to your liking, ensuring a personalized and enriched underwater journey.

Advanced Depth Management for a Confident Dive

Take charge of your underwater exploration with our sophisticated depth management system. Subblue Vapor customize reachable depths to match your skill level, backed by critical alerts that notify you when limits are approached. Additionally, our intelligent over-depth speed limitation ensures a controlled descent, optimizing stability and safety during deeper dives. Whether you're a novice or experienced diver, this feature guarantees a secure and enriching underwater experience like no other.

Optimal Depth Change Rate Alert: Seamlessly Navigate Depths up to 40m

Embark on underwater exploration with utmost confidence, guided by Subblue Vapor innovative depth change rate alert feature, ensuring both comfort and safety. Sudden depth changes can induce discomfort or even decompression sickness, which is why our system empowers you to set a controlled rate of depth change while receiving critical alerts upon nearing thresholds. With our recommended maximum descent speed of 18m/min and ascent speed of 9m/min, transitions are effortlessly smooth, allowing you to fully enjoy depths up to 40m

UNLEASH THE POWER WITH DETACHABLE BATTERY AND REVOLUTIONARY SUPER-FAST CHARGING

Elevate your underwater escapades with the ultimate convenience of a detachable battery, boasting a rated voltage of 29.6V and an impressive 13000mAh capacity, providing a substantial 384.8Wh of energy. Subblue Vapor robust battery not only fuels your adventures but also enables the unit to run for up to 60 minutes, ensuring extended exploration. Prioritizing your safety, it comes equipped with protective measures against overcharging, over-discharge, overcurrent, short-circuits, and discharge monitoring. Dive into the depths with confidence, empowered by innovation and security, making every underwater moment count. And that's not all experience uninterrupted thrills with our cutting-edge Super-Fast Charging

technology. Charge your device from 0% to 85% in just 1 hour, and swiftly reach full power from 85% to 100% in a mere 0.5 hours. Stay fully charged and ready to explore the depths in no time, immersing yourself in the aquatic wonderland.
